***Allowable Subject Matter***

1. Claims 43-44, 47-50 and 54-60 are pending and are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of Stefik (US 5,638,443) teaches a system for controlling use and distribution of composite digital works. A digital work is comprised of a description part and a content part. The description part contains control information for the composite digital work. The content part stores the actual digital data comprising the composite digital work. A repository processes each request to access a composite digital work by examining the usage rights for each individual digital work found in the description part of the composite digital work.

In regarding to independent claims 43, 49 and 57, Stefik taken either individually or in combination with other prior art of record fails to teach or suggest checking a security for an electronic use right when compressed and/or encrypted contents data is to be reproduced, wherein said electronic use right includes an encryption type, an error correction code, and a software for decoding encryption.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
